

WE ARE A REAL LIVING WAGE PROVIDER

We strive to be the best employer that we can be and are delighted to be officially recognised as a Living Wage accredited employer, recognising and rewarding the hard work of our teams across the country and making sure that they are in the best position to thrive inside and outside of work.

This recognition, together with the outstanding package and career progression pathway that we offer will allow us to attract the best team and continue to support them in any way that we can - without them we would be unable to provide our patients across Scotland with the best dental care and treatments.
